
CARE TEAM
The family is financially stable but they do not know how to take care of the care-seeker.
THE CARE TEAM GOES TO A BIG HOUSE
Could you please sit up like we taught you and do the exercises.
Wow! Good progress
Yeah. I remember always sit up from one side.
Physiotherapist conducts the exercizes according to the care seeker's comforts, interests, limits
Swelling of hands and legs have reduced due to the exercizes. Not bedridden anymore.
Thank you, it only took me 2 weeks to sit up by myself
okay. Now lets try walking
Umm... I am still not comfortable with that. I don't want to do
Then lets find an alternative for you
THE PHYSIOTHERAPIST CARRIES THEIR OWN PHYSIO MACHINES AS WELL
Try doing these exercizes everyday. In the next session, we'll try walking

HE CARE-TEAM LEAVES TO
T ANOTHER CARE-SEEKER

She checks the previous homework and takes a photo of it to maintain records

COORDINATOR COUNCELS THE SCHIZOPHRENIC CARE-SEEKER

THE COORDINATOR TAKES A PHOTO OF THE COUNCELLING SESSION

The family of care-seekers feel comfortable with the care team, and tend to ask them to check their BP and sugar.

CARE TEAM - PLAN
SATURDAY - PREP

" On Saturday's, care team prepares for coming week. "

- Make reports → updating reports
- Got New machines → learn them.
- update routes
- dressing → gauze

make new schedule

Call (palliative care team) to care-seekers they plan the visit for

ABSENCE OF STAFF NURSE

- Staff nurse is on leave
- route plan changes
- Care team will have only physiotherapist now
- They schedule visits only, who need physiotherapy
- Take sessions & return to office.

Care team going to do the dressing for the care seeker.

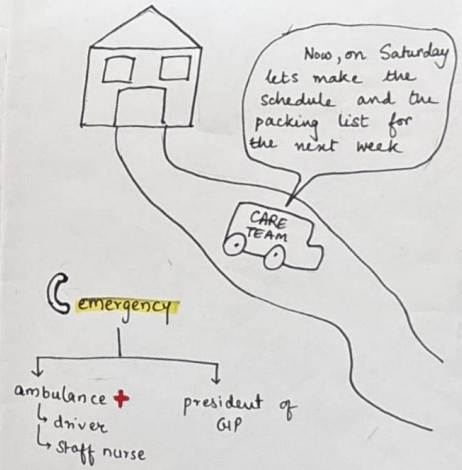

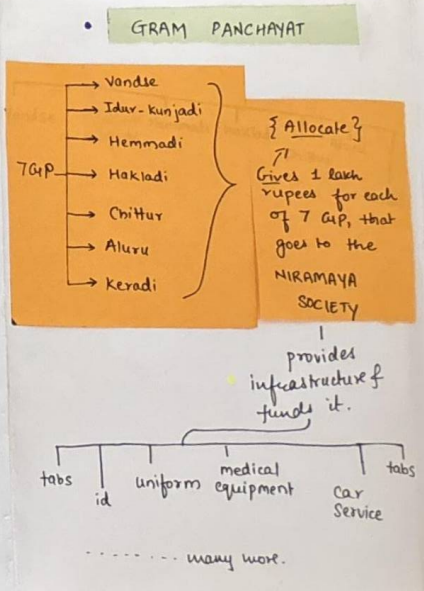

Every Monday, the care team goes for dressing.

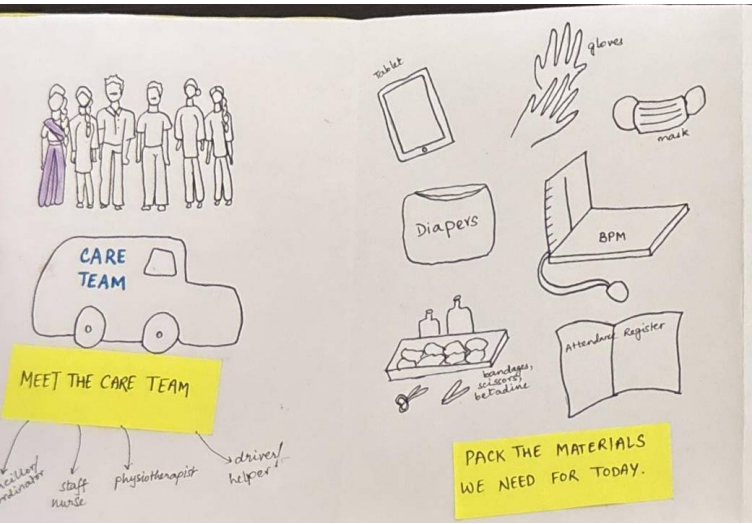

If the care giver does not want to learn how to do the dressing, then we suggest them to go to the government hospital.

BPM
bandages, scissors, betadine
Attendance Register
PACK THE MATERIALS WE NEED FOR TODAY.

SARC
Let's go right from here
ASHA worker
CARE TEAM
ASHA workers visit houses to houses to identify the careseekers. From there, they let the care team know.
OTHER WAYS TO IDENTIFY THE CARE-SEEKERS: Now, the caregivers or neighbours can call the care team members or the president of the gram panchayat

Co-ordinator Cum Councelor examines the condition.
Patient info: Symptoms: Doctor's report Medical Records
NA Form
Staff Nurse fills the Need Assessment forms.
MEDICAL REPORTS
Physiotherapist examines the requirement of Physiotherapy.
FIRST VISIT AT CARE-SEEKERS HOUSE.

FEBRUARY
S M T W T F S
They also made sure to keep a track of her menstrual cycle
Since the care seeker was on her periods, the care team provided her with adult diapers, that they always carry extra.
THE 14 YR OLD CARE SEEKER HAS BEEN AFFECTED BY ENDOSULFAN SINCE BIRTH.
